## Swagger (Updated at 0/04/2020)

Swagger: <http://localhost:3000/documentation#/>

Installation:

- npm install
- npm run start

Test Command:

- npm run test

url: localhost:3000

## POST Assignment1

EndPoint

\*POST\* {{url}}/assignment1

Params:

Json Array as described in question

Expected Output:

Json Array as described in question

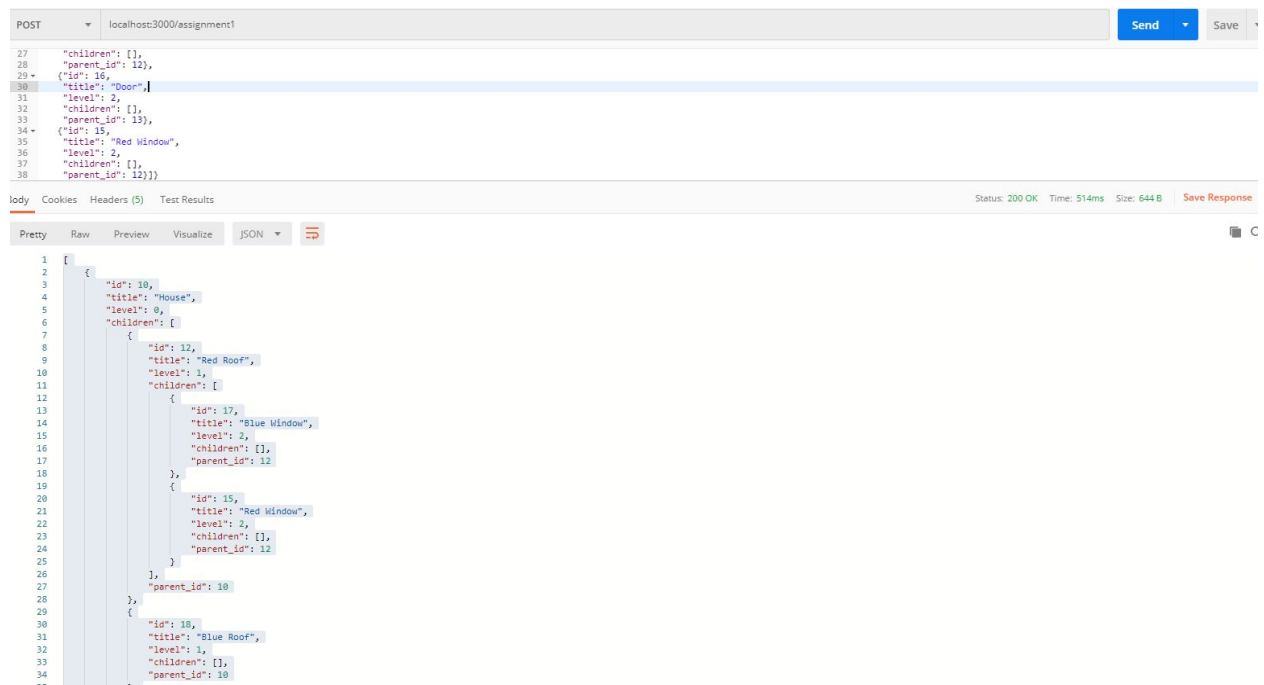

Image 1: Result for assignment 1

## GET Assignment2

EndPoint

\*POST\* {{url}}/assignment2?page=1

Query Params:

page: Number (default is 1)

Expected Output

Html Page with results table from Git Search API
